CONDITION OF OMAHA'S TRADE

Unseasonable Weather and the Elections Interfere with Business.

COLLECTIONS SHOW VERY LITTLE CHANGE

Imaha Jobbers Generally Report Trade as Very Fair for the Past Week, but Bardly Up to the Average of the Previous Week.

The change to colder and stormy weather, which business men have been wishing for came at last on Saturday afternoon. While the pleasant weather that has prevailed during the winter thus far is very grateful to the average run of humanity, it is not well suited to the needs of business men. The man who has heavy winter goods for sale has no use for unseasonable weather and he wants winter weather during the winter

Only those who have had experience in business can fully appreciate the great influence exerted by the weather over business. A mild winter enables consumers to do without many things that are an absolute necessity when the weather turns cold and thousands of dollars are kept out of general circulation. The season thus far has furnished a good example of this fact and ousiness last week suffered severely for the

want of a cold wave that would give new impetus to the demand for goods.

The change in the weather Saturday will doubtless be of some help and will serve as a reminder of the near approach of winter weather, even if it does turn warm again in a day or two. day or two. The elections were also a disturbing factor in the business world, as such a large pro-portion of the voting population gave more

ittention to politics than business. Taking everything into consideration it is not surprising that quite a number of the Omaha jobbers report business during the past six days as hardly up to the previous week's showing. The week closed, however, with a much better feeling prevailing among merchants in all lines. While they do not look for any great satisfies in business that look for any great activity in business they interpret the signs of returning confidence as an assurance that business during the balance of the season will show an improvement if any change at all.

ment if any change at all.

The reports of returning confidence in the east have had a benedicial effect upon the situation here. A good many local business men are commenting upon the fact that more mills are starting up in the east than there were a few weeks ago and that it is only the question of a little time when busi-ness in the whole country must return to its condition. Business will be conducted along conservative lines for some lit

depression must wear away in time.
Collections in the country tributary to this market are only fair and there is considerable room for improvement, but they are much better than was the case a few weeks ago. A free movement of the corn crop
would have a tendency to make money much
more plentiful in the country, which would
both improve trade and collections.

The decrease in the clearings at Omaha as

compared with the corresponding week of a year ago was only 19 per cent. This is the comparative showing made by the city in a good many weeks At the same time the volume of the clearings is not so large as it was during the last two weeks of October. For the week ending October 20 the clearings of the national banks of Omaha were \$5,000,367. For the week ending October 27 the clearings were a few thousands larger, but with the first week in November they dropped down to \$4,410,715, and for the past week the total was only about \$250,000 larger. The better comparative showing is due to the fact that the clearings a year ago were no so large in November as they were in Octo

The decrease in the clearings for the whole country, as compared with a year ago is 20 per cent, which is 1 per cent larger than the decrease at Omaha, showing that
this city is fully as well off in the matter of
San Francisco, Nov. 11.—The official closing

AS DUN SEES IT.

Business Interrupted by Elections-What the Jobbers Say. Mr. W. H. Roberson, Omaha manager o R. G. Dun & Co., in his usual weekly re view of local trade, speaks as follows:

"For the first three days of the week the elections were of paramount interest and trade suffered somewhat on their account. Elections are held too frequently in this country for the good of business. Even a local campaign invariably affects trade, and when the interest becomes na-tional the evil effect is more ex-tended. It would be well if we could manage to have our municipal elec-tions and our county elections occur once in two years instead of once a year, so that the annual disturbance of trade would be avoided. I hope some day the national elections will be changed so that a president will be elected for six years at least. What the business of the country wants is stabi

y. Uncertainty paralizes trade.
"In Omaha trade is improving and the sit 'uation in financial circles is mending very rapidly. Conditions are easier and bankers are beginning to loosen the strings with are beginning to loosen the strings with which their purses have been held so rigidly. If the depositors would only come back again and show a return of confidence by a return of funds the situation would shape itself satisfactorily without much delay. The great problem now before the country is not that of a financial policy or a tariff policy, but it is: How can the people be brought back to the point when they will rely upon the banking institutions of the country and redeposit the four hundred millions they have taken out of the banks in illions they have taken out of the banks in "Some Omaha jobbers enjoy a most excel-

lent standing among eastern money lenders At least one house in this city has been offered all the money it wanted at 41- per cent on its single name paper. A New England banker calling on me yesterday took occasion to remark that he had always been glad to get paper made by some of our leading houses. It speaks well for a firm to find that it is able to borrow money on its unen-dorsed paper at so low a rate of interest in

atringent times like these.
"Among the jobbers trade has been quite fair for the week as a whole, the last three days subsequent to the election showing a marked improvement. Grocers have been well satisfied. Dry goods men report trade not quite so active as last week, and other lines average fair. Collections are re-ported good all along the line.

"The proposition for canal bonds has been defeated, but it is to be hoped that the canal defeated, but it is to be hoped that the canal enterprise will not be abandoned on this account. The proposition was unbusinesslike and did not recommend itself to the voters of the city. Nothing could be more beneficial to this city than the proposed canal, and it would be a good investment for Omaha to expend \$1,500,000, or even twice that sum, in creating a plant which would furnish newer for so many factories and other insti-

to expend \$1,500,000, or even twice that sum, in creating a plant which would furnish power for so many factories and other institutions. Perhaps when times ease up and money is more eagerly seeking employment some corporation or other will take up this enterprise on its own merits and push it to completion. It appears perfectly feasible, and I cannot see why it would not pay a good interest upon the investment if Omaha is ever to be a large city.

"Among the bond propositions voted was one of \$200,000 for a market house. I cannot say that I was favorably disposed toward this proposition. It does not seem quite proper for the city to expend \$200,000 in creating a market, when, if the privileges of a market house were conceded to some concern, all the facilities would be provided without cost to the city. At the same time, since the people have voted to expend the sum named for the purpose named, it is to be hoped now that the city fathers will develop a plan which will make the investment a profitable one for the city. A general market is quite important to the individual consumer. It would save 25 per cent on green goods to nearly every householder. Two hundred would save 25 per cent on green goods to nearly every householder. Two hundred thousand dollars would put up an ample establishment, and the stails could be rented for enough to pay good interest on this sum and considerable besides."

Chestauts are scarce on this market, and

no one appears to have any stock worth California cabbage is ready to ship and will soon be plenty enough to out quite a figure

Indian river oranges have arrived on this market. They are supposed to be a little better than other Florida oranges.

N. H. Nelson of the firm of Branch & Co., left the first of the week for a trip of two or three weeks through the Black Hills country. Western Nebraska has great possibilities as a potato producing country. There was a car in from Haigler a few days ago that was pronounced superior to Colorado stock. Three of the larger potatoes, though not the largest, weighed five pounds.

Local houses report that their advices from Baltimore would seem to indicate that oysters are scarce, and that they are going to be higher. It is claimed that the warm weather and the consequent light demand is the only thing that has prevented an ad

The proposed shipment of a cargo of oranges from Florida to England has been abandoned. The storms in the south cut down the crop a good deal and growers were unable to contract with the shippers, so that the scheme has been given up as impractica-ble for this season. A good many oranges are being shipped to England from New York, but they are going forward in small

Importers and dealers in foreign fruits at New York are aroused over the bill which has been introduced by Representative Geary of California, which increases the duty on oranges and lemons to \$1 a box, quadruples the duty on clive oil and places a duty of 21% cents a pound on Zante currants, which at present are admitted free. The Italian Chamber of Commerce of New York City has sent a petition to the committee on City has sent a petition to the committee on ways and means protesting against any increase in duty on oranges and lemons and

advocating a decrease of duty. J. Ross Traynor, a heavy fruit shipper of Marysville. Cal.. was in the city the middle of the week. He is very enthusiastic over the growth of the fruit business of California. In spite of the dull times he estimates that 1,500 to 2,000 more cars of green fruits have been shipped from his section of the state than last year. Owing to the screen was Owing to the scarcity of money there views fruit put into cans than usual, and the old stock is being cleaned up. Next year, under favorable conditions, the canners will be likely to run much heavier, which would have a tendency to reduce the ship-ments of green fruits. Mr. Traynor says that the fruit growers have all paid expenses and have a little money left in their pockets. For some months past the apple crop has een reported to be very short, and season advances this fact is more fully ar preciated. Prices throughout the country are high, not only with green, but dried and other apples, and from late reports it is be-lieved the green will not amount to over 50 per cent of an average crop. In some sections a fair quantity of fruit was raised, but in others the yield was almost a failure; this being the case at many points where much stock is usually evaporated and dried. The crop is not only small, but of very poor quality, and the outlook seems to favor high prices for the balance of the season. The shortness of the crop, together with the inferior quality, is attributed to the severe drouth which prevailed during the summer months, and the savere storms in Sentember which and the severe storms in September which caused large quantities of fruit to be blown from the trees before it had a chance to mature. - Reports from sections all through New York state, as well as Pennsylvania, Maryland and Virginia, state that the dam

states suffered more or less from the same Boston Mining Quotations. BOSTON, Nov. 11.-Closing quotations on

age done fruit having been blown from the trees was particularly large, while other

Exports of specie from the port of New York for the past week were: Gold, \$491,707; silver, \$475,581.

Driven from the Town Twice.

Driven from the Town Twice. Panis, Ky., Nov. 11.-At 10 o'clock last night eight strangers rode into North Middletown, this county, ten miles from here, and it is supposed their intention was to rob the bank at that place. They shot at every the bank at that place. They shot at every person seen on the street and mortally wounded an old negro named Burt Morris. The citizens opened fire on the desperadoes and they answered with a volley from their pistols. The citizens kept up their firing, and the desperadoes left, but returned in a half hour. They were again charged upon by the citizens and driven out of town.

They stopped at a house on the roadside, about a mile from the town, and found that three of them were badly wounded. Those not wounded took them on in the direction of Mount Sterling. They were all strangers.

Three Miners Crushed to Death. Welch, W. Va., Nov. 11 .- The slate roof in the Closier mine fell in today, justantly killing James Block and crushing John Jones and J. D. Davis so badly that both died within an hour. James Davis, a fourth miner, was seriously but not fatally hurt.

COMMERCIAL AND FINANCIAL

Wheat Lost Nearly Two Cents Yesterday on the Combination.

ENORMOUS RECEIPTS THE FEATURE Cables Were Not Altogether Favorable and

the Builish Feeling of Friday Entirely Disappeared-Operators Were Anxious to Unload.

CHICAGO, Nov. 11 .- With heavier northwestern receipts, smaller exports, heavy selling and indications of a heavy increase in the visible supply all against it, wheat today lost 15cc. Corn is off 3cc on the government crop report figures, which indicated 60,000,000 bu, more than the October report. Oats closed 16c off. Provisions also sold lower, packers offering stuff.

Wheat was weak throughout the day. Reports showed that Minneapolis and Duluth had receipts of 973 cars against 750 yesterday and 675 last year. Bradstreet's statement showing a heavy increase in the United States and Canada supply and heavy selling brought the prices still further down. Bearish reports continued to roll in and the market grew weaker. Cables were not altogether favorable and the bullish feeling of yesterday entirely disappeared. Operators who bought then made haste to sell and under all these bearish influences the price steadily declined to the close. December opened %c below yesterday, went 14c lower, dropped another 16c and then dropped to the closing price, 61%c, ic lower than its opening and 1%c below last night's close.

Corn was lower, May opening 3/c off at 42%c and losing 3/c more before it railled to close 3/c worse than it started. There was

a fair business transacted at the start, but on the bearish government report and wheat's slump the selling was heavy, and May landed at the close at 41%, off 3%c from yesterday's closing.
Outs were easy, following corn, and but little business was done. May opened %c below yesterday's close, and, with corn's

weakness, lost another \$\frac{1}{2}c\$, closing \$\frac{1}{2}c\$ below yesterday, at \$13\frac{1}{2}c\$.

Provisions were weak, with packers anxious to sell. Weakness in grain and indications for heavy live stock receipts were the factors. Tonight, as compared with last night, January pork is 20c lower, January lard 15c, and January ribs 10c.

Estimated receipts for Monday: Wheat,

New York Nov. 11.—The week closes on disappointing results as to the volume of bus-iness in dry goods, and while prices have not appreciably changed, the lower ruling of the price of cotton has unfavorably influenced the market for cotton goods in general and Sr. Louis, Nov. 11.—The advance established in the afternoon on the government report was lost and cotton was dull throughout sales, 395 bales; ordinary. 0%c; good ordinary, 7%c; low middling, 7%c; middling, 7%c;

this unfavorable condition has been shared by the woolen goods as an affeit of sympathy. Cotton goods barely hold their own as to demand or price. Prints and printed fabrics show a fairly steady undertone, being held in moderate supply. The same is true of print cloths. Ginghams and woras, fabrics show a steady undertone and, if suitable for spring trade, meet with a fair demand. Foreign dry goods of holiday character or light weight and colors find a moderate demand at unchanged prices.

Omaha Produce Market.

Omalia Produce Market.

BUTTER—Choice butter, that is, butter that is good enough to take the place of creamery, sells very rapidly, but is becoming more plenty. Choice creamery, 24@26c; choice to fancy country, 21@23c; fair to good country, 18@29c; packing stock, fresh, ibc.

EGGS—Recelpts of fresh stock are not large, in fact, there does not appear to be any quantity of ergs in the country. The mild weather that has prevailed the greater part of the fall makes the egg market drag. Cold storage eggs are being offered freely on the market at 19c. Strictly fresh eggs are going at 29c.

POUTINY—The recelpts of chickens are large and the packers are offering only 6c. Sales to the local retail trade are made at the same price. The decline in the chicken market, together with liberal recelpts, has lowered the price on ducks. Old hens, 6c; chickens, 6c; geese, 6d.74c; ducks, 7@8c; turkeys, 8@9c.

VEAL—The arrivals during the past day or two have been light, and the market firm at previous quotations. Choice small and fat veals, 64/674c; thin or heavy, 3@5c.

GAME—The colder weather is having a very beneficial effect upon the game narket. The demand which has been light all the fall is improving and prices are consequently firming up very rapidly. From now on birds that are undrawn will be given the preference. Prime chickens, 83.50; grouse, 83; quail, \$1.25/21.50; inck snipe, 75/28/\$1.00; colden plover, 75/28/\$1.00; chanada geese, \$6.00@6.50; small geese, \$4.00@4.50; brant, \$3.00@3.50; mallard ducks, \$1.25/20.50; brinks ducks, \$1.25; canvassback ducks, \$3.50/winked ducks, \$1.25; canvassback ducks, \$3.50/winked

telope saddles, 14@15c; antelope carcasses, 9@10c.

HONEY—Honey is commencing to move a little more freely, but the demand is still light for it; choice white clover, 15@17c.

Oystens—Medium, 16c; horseshoes, 17c; extra standards, 21c; extra selects, 24c; company selects, 29c; counts, 34c.

NUTS—Chestnuts are lower and there is a fair supply of choice eastern stocks on the market, which is selling at 12@14c per lb.; almonds, 19c; English walnuts, 14c; fitherts, 12%c; Brazil nuts, 12@13c; pscans, large, 14c; pecans, medium, 12c. The market on black walnuts is low and no one wants to buy. Doalers are asking 75c per bu, for small lots shipped to the country on orders, but walnuts shipped in here would probably not bring more than one-half of that price. Small hickory nuts, on orders, \$1.75; large, \$1.25. VEGETABLES.

VEGSTABLES.

BEANS—Eastern hand-picked navy, \$2.102
2.15; western navy, \$1.8021.90; common white
beans, \$1.5021.75.

Onions—There is not much activity in the
onion market, owing to the fact that the local
crop is large and the gardeners are supplying
the demand very largely. Onions are quoted
at 50265c, and on orders at 75c; Spanish
onions, per crate, \$1.50.

WATER CRESS—Put up in berry boxes, per
case of 16 qts, \$1.6021.75.

Potators—The receipts are larger and the
market is very weak. Nebraska, Iowa and
Minnesota grown potatoes, in small lots from
store, 65270c; same in car lots, 60265c; Colorado, from store, 75280c; Colorado lots, 702
75c.

75c.

Carrage There is a good deal of cabbage selling in this market, but the demand is supplied entirely by the gardeners. Orders for cabbage from the country are filled at 1½c. CELERY-The demand is increasing as the Thanksgiving holiday draws nearer and a good deal of celery is being sold; good stock, 25@35c; faney, 50c.

SWEET POTATOES—The supply is fair; western stock, per bbi., \$3.00@3.50; Jersey stock, per bbi., \$4.

per bbl., \$4.
GREEN VEGETABLES—Spanish, per bbl., \$2.25; salsify, 30@35c per doz.; radishes, per doz., 20@25c; endive, per doz., 50@50c; onions, per doz., 20c; cauliflower, per doz., \$3; lettuce, per doz., 50c. FRUITS. GRAPES-Eastern Concords, 24@25c; large CALIFORNIA FRUITS-There is not much left on the market; pears, \$2.50; grapes, \$1.50. Apples—The supply is light on this market; choice eastern, per bbl., \$4.25@4.50; choice western, \$4.25.

freely and are in good demand; Cape Cod early, per bbl., \$5.75@6.00; bell and bugle, \$6 TROPICAL PROTES. BANANAS—Prices remain about steady; per bunch, large, \$2,00%2.50; per bunch, small to medium, \$1.75%2.00.

LEMONS—Messinas, per box, \$4.50%5.00; Floridas, \$5.

ORANGES—Mexicans or Floridas, per box, \$3.25; 5-box lots, \$3.

CRANBERRIES-Cranberries are arriving very

HIDES, TALLOW, ETC.

Combination of Vanderbilt Interests

Factor on 'Change. New York, Nov. 11.—Thoonly features of

the early market today were Reading, New England and Chicago Gas. The interest aroused in those specialties yesterday was sufficient to carry over night. The rest of the list was dull and inactive, but in the main firm, with a tendency to advance as shorts endeavored to cover. New England was weak, opening off 137 per cent at 37 and declining to 3614. It was not enough yesterday that the Vanderbilt interests had cut the road off from its through train service from the Grand Central station in this city and blocked its traffic scheme by way of the Poughkeepsie bridge. Today comes the announcement of a close alliance between the New Haven & Hartford road and the Lehigh Valley. One of the strong points in Mr. Mc Leed's recent fairy tales has been the pro-posed combine between the New England and the Lehigh Valley, but it seems he is checkmated in this as he has been in so

many other cases.

This new aggressive move on the part of the Vanderbilt interests gave the New England stock another break. Incidentally Reading advanced sharply on the publication of the new deal, as it was taken to indi-cate the pronounced policy of the Vander bilts regarding the coal business. It gave further grounds for hope that this powerfu in the reorganization of the company. It was even intimated in the enthusiasm of the moment that a favorable plan had even been agreed upon which included the constitution of the flat. which included the consolidation of the floating debt by the issue of a blank collateral trust mortgage. The street is firm in the be-lief that the speculative value of Reading will be greatly increased if the Vanderbilts are really interested in the road. The bear party in Chicago Gas was treated

to another turn of the thumb screws this morning. The inside party or pool is be-lieved to have increased its holdings during the recent raid against the stock when it was depressed to 58, and the shorts created in that movement now find the stock very scarce.

The Post says: Only a handful of stocks

to \$3.10, with inferior to fair grades at from \$2.75. ged in during the day, and in the the movement of prices was somewh irregular. In the industrials a concert bear movement was made without, however, any news to influence the sales. Fro one point of view, and from that mo widely adopted in speculative Wa street, the day's bank statement w very favorable. Specie and leg tender increased \$7,897,100, which a gain much larger than had been antic pated. Idle money in banks means idle tim in trade. When interior trade begins to r rive on an extensive scale then the No York bank surplus will begin to shrin This was the case in 1874 and 1885. doubt when such a change becomes visib the surface speculators will complain at will sell securities, for to the average boar room trader the call money market is t beginning and the end of the financial situ tion. But the community of investors is n

OMAHA LIVE STOCK MARKETS

Falling Off in Number of Receipts the Principal Feature.

QUALITY OF CATTLE IS IMPROVING

Trading Active at Steady Prices-Stockers in Strong Demand-Hog Values Drop

Receipts of both cattle and hogs fell

sharply short of a week ago, while there

was a big increase in sheep. The figures are

as follows:

a Quarter During the Week -The Figures.

SATURDAY, NOV. 11.

The cattle market the past week has been nonotonously firm on decent killers. Supplies have not been at all excessive, and western rangers are now giving way to the more or less cornfed mative stock. Dressed beef men still complain of the scarcity of good killing grades and for this reason they have to piece out their purchases with inferior stock or go without. The result is that prices have held up firmly on all grades. In addition to the usual very good local demand there has been an active inquiry from eastern butchers as well. There has been no lack of buyers, and the only

difficulty has been to secure enough of the right kind of stock to kill.
Today's market was a fair sample of th trading on the five preceding days. On account of the light supplies and the very fa vorable tone to eastern and continental ac vices the tendency of prices for good to choice stock continues in the sellers' favor, while for the ordinary grade the market has scarcely undergone an change either for the better or worse. It view of the very probable decrease in supplies from now on it is difficult to see he buyers can continue to hold prices down ver

Better Showing of Fat Stock.

There was a better showing of cornfe cattle here today than for some time parand the offerings included some very desir. ble beeves. Fair to choice 1,200 to 1,550-1 cornfed beeves sold at from \$4.50 up to \$5.0 while common to fair grass and half fi stock sold at from \$3.50 to \$4.25. The su ply of decently fat range cattle was ver meager. Some fair 1,120-1b, beeve brought \$3.40, but that was about the ex-tent of the business in this branch of th trade. There was a good undertone to the trade, a fair amount of activity, and a ver fair and reasonably early clearance was e

Butcher stock and canner values has shown an unusual degree of steadiness a week. From a fourth to a third of the r ceipts have been cows and mixed stock. T demand has not been wholly confined local slaughterers, and the trade has b lively in the main with prices well sustained. The market today was active and stronger. There were perhaps twenty-five loads on sale, and they changed hands readily at from \$1.60 to \$3 for common to choice cows and heifers, while fair to good butchers' stock sold largely at from \$3 to \$2.50. Good to choice veal calves sold at from \$4 to \$4.50, while \$1.50 to \$2.75 bought most of the common and overgrown stock. There was a very re-spectable inquiry for rough stock and prices ruled fully steady, sales being largely at from \$1.75 to \$2.50 for common to good bulls, oxen and stags.

No new features have been developed in the stocker and feeder trade. Good fleshy stock has been in active demand and firm, but the greatest strength has been shown by the stock grades. The country demand for young cattle to rough through the winter continues very active and the supply falls considerably short of the demand. Trading today, as is usually the case on Saturday, was quiet, but prices ruled firm on all grades. Good to choice feeders are quoted at from \$3.20 to \$3.60; fair to good at from \$2.75 to \$3.10, with inferior to fair grades at from stock has been in active demand and firm

Drop in Hog Prices.

Notwithstanding a falling off in receipts of hogs of over 5,000 head compared with last week and the corresponding week last year, hog values have taken a 25c drop and the feeling has been ak. The market was slightly humeralds 2 of that is there was a slightly apported there the middle of the

he opening of the

seem to be gradually enlarging their pur-chases, although apparently indifferent at times unless able to buy at their own figures. They claim they can not cure for future de-livery at the present prices of live hogs and the market for deferred contracts. The present light stocks, especially of dry salted meats, however, necessitates a production to meet the demand, which continues fairly Shipments continue insignificant from this point and they are not large from any of the other markets. For this reason Omaha has

regular winter packing season the packers

for the present assumed second place as a packing center, having put away 21,000 hogs for the first week of November against 20,000 for Kansas City. A year ago, for the same period, Omaha packed 23,000 hogs, while Kansas City had 42,000. These figures are very satisfactorily suggestive.

Worst of the Week.

The week closes with the heaviest run of the week and a very bad market. With pretty close to 5,000 hogs on saie, lower mar-kets east and no shipping or speculative demand, sellers were practically at the buyers' inercy, and had to submit as gracefully as they could to an average decline of fully 15c, All local houses were is the field after supplies, and as sellers were, as usual on Satur-day, anxious to clean up their holdings, business was fairly active at the decline, business was fairly active at the decline, and it did not take very long to clear the pens. The range of prices was unusually narrow, sales showing anywhere from a 10c to a 20c decline on all grades. Some of the best heavy and butcher weight hogs sold up at \$5.80, while a few very common underweight loads went at down around \$5.50 to \$5.65. For fair to good hers of all weights it was practically a good hogs of all weights it was practically a \$5.70 and \$5.75 market, the big bulk of the supplies changing hands at those figures, as

against \$5.85 to \$5.90 Friday and \$5.95 to \$6 on last Saturday. Representative Sales.

Sheep Trade Unchanged. Sheep receipts were light and mostly common Mexican lambs. There is absolutely no change in the situation. Local slaugh-terers all need supplies, but with eastern markets glutted and demoralized the feeling here is decidedly weak. Quotations are: Fair to good natives, 彩.50@3.10; fair to good westerns, \$2.25@3.00; common and stock sheep, \$1.50@1.25; good to choice 40 to 100-1b. lambs, \$2.50@4.00. Representative sales:

Chicago Live Stock Market.

Chicago Live Stock Market.

Chicago, Nov. 11.—The estimated run of cattle for today was 4,000 head, making 62,695 for the week, or about 6,000 less than for last week, and 7,000 less than for the corresponding week last year. Of today's receipts about one-balf came from Texus. There was a restricted demand and the market was not strong, though salesmen managed to work off most of the stuff at Friday's prices. Most of the natives were such as usually go to be all butchers and canners, and not many sales were made at better than \$4.50, from \$1.80 to \$1.75 buying the bulk of the cows the steers going principally at from \$4 to \$4.50. Texas cattle were slow and weak, with sales principally at

better than \$4.50, from \$1.80 to \$1.75 buying the bulk of the cows the steers going principally at from \$4 to \$4.50. Texas cattle were slow and weak, with sales principally at from \$2 to \$2.55.

Today's hog market was a bad one—among the worst of the season. It was 10c lower than Friday from the very start and it grew duller and weaker every minute. By 9 o'clock prices had been pushed back to from 20c to 25c per 100 lbs., heavy weights suffering the most. They dropped to from \$5.50 to \$5.95 and were practically unsalable at that range any time after 10 o'clock. There were sales early in the day at from \$6 to \$6.10. Light weights went to from \$5.50 to \$5.95 and cross the average and the total for the week is notably light for the time of the year, but those circumstances did not appear to count for anything with packers; they decided to put prices down, and they did it with neatness and dispatch. Armour was out of the market early, as were also some of the smaller buyers. Although there were left over. The sheep and lamb markets were lifeless. There was little or no demand for cither and not enough trading was done to give any fair idea of values. Quotations for sheep ranged from \$2.50 to \$4.50. Receipts for the week amount to about 72.000 head; sheep, 1,000 head; hogs, 15,000 head; sheep, 1,000 head. The Evening Journal reports:

Cartile - Receipts, 4,000 head; calves, 400 head; hogs, 15,000 head; sheep, 1,000 head. The Evening Journal reports:
